

Scooter battery reconciliation

DLCC628, DLCC632, DLCC635 and DLCC636

10 September 2026

Shortage: 180 pcs of 7AH batteries. The four container lists contain 760 scooters requiring separate batteries. The 100 pcs of 4AH batteries cover the two FILM models in DLCC632 exactly.

Battery balance

Battery	Needed pcs	Received pcs	Result
7AH	590	410	Short 180
6AH	30	230	Extra 200
4AH	100	100	Exactly enough
M4PRO	20	23	Extra 3
G-FORCE	20	21	Extra 1

Batteries needed by container

Container	4AH	6AH	7AH	M4PRO	G-FORCE	Total
DLCC628	0	30	80	0	20	130
DLCC632	100	0	110	0	0	210
DLCC635	0	0	170	20	0	190
DLCC636	0	0	230	0	0	230
Total	100	30	590	20	20	760

7AH calculation: $80 + 110 + 170 + 230 = 590$ needed. Less 410 received = **180 short**.

Battery assignments and counting basis

DLCC632: 7AH is applied to Supersonic Black (80) and PhantomX Pro Blue (30), following the latest clarification. The two FILM models use 4AH (50 each). This replaces the older 6AH note for Supersonic in DLCC630 cell D228.

Container matters: BLKXIOMI uses 6AH in DLCC628 and is labelled 7AH in DLCC635. Battery assignments in this report are specific to these batches.

One battery is required per scooter. The 25 Drift Trikes in DLCC628 already include batteries and are excluded. The received battery count is used once across all four containers; spare batteries listed elsewhere are not added again. Surplus battery types are not offset against the 7AH shortage.

DLCC635 and DLCC636 use the listed quantity column because their actual COUNT cells are blank. Duplicate rows are added: PhantomX Pro White = $50 + 50$; PhantomX Pro Black = $120 + 30$.

Scooter and battery list

Quantities are units. Each listed scooter requires one battery of the assigned type.

Container	Scooter variation	ISKU	Qty	Battery
DLCC628	Turbo - Black	BLKXIOMI	30	6AH
DLCC628	Phantom - White Blue	WHITE-BLUE-XIOMI-AIRLESS-UPG	30	7AH
DLCC628	Phantom - Black Red	BLK-RED-XIOMI-AIRLESS-UPG	50	7AH
DLCC628	G-Force (Standard)	EB-C14-STANDARD	10	G-FORCE
DLCC628	G-Force Deluxe-Black	EB-C14-DELUXE	10	G-FORCE
DLCC632	Supersonic - Black	BLKXIOMI-AIRLESS	80	7AH
DLCC632	PhantomX Pro - Blue	BLUE-XIOMI-AIRLESS-PRIMIUM	30	7AH
DLCC632	New color - Black White	XIOMINEW-FILM-BLK-WHT	50	4AH
DLCC632	New color - Black Red	XIOMINEW-FILM-BLK-RED	50	4AH
DLCC635	PhantomX Pro - White	WHITE-XIOMI-AIRLESS-PRIMIUM	100	7AH
DLCC635	M4Pro	ES-M4-PRO	20	M4PRO
DLCC635	Turbo - Black	BLKXIOMI	30	7AH
DLCC635	PhantomX Pro - Blue	BLUE-XIOMI-AIRLESS-PRIMIUM	40	7AH
DLCC636	Supersonic - Black	BLKXIOMI-AIRLESS	80	7AH
DLCC636	PhantomX Pro - Black	BLK-XIOMI-AIRLESS-PRIMIUM	150	7AH

Excluded: DLCC628 Drift Trike-Colorful, ISKU DRIFT-TRICKER-SCOOTER-COLORFUL, 25 units. These already come with batteries.

Other compatible 4AH models

The following 4AH-compatible ISKUs were supplied in the original compatibility list. None appears in the four assessed container lists:

XIOMINEW-PRO-SCOOTER-BLK
 XIOMINEW-PRO-SCOOTER-WHT
 XIOMINEW-HONEYCOMB-TIRE-BLK
 XIOMINEW-HONEYCOMB-TIRE-WHT

4AH is fully allocated: XIOMINEW-FILM-BLK-WHT (50) + XIOMINEW-FILM-BLK-RED (50) = 100 scooters and 100 batteries needed.
